SUMMARY

Security engineer on application security and identity. Nine years across banks and a scale-up.

EXPERIENCE

Mar 2020 – Present

Senior Security Engineer, Vistula Bank, Warsaw

- Run the application security programme: threat modelling, code review, and a bug bounty.
- Replaced the legacy SSO with Keycloak and OpenID Connect.

Jul 2016 – Feb 2020

Security Analyst, Mazovia Scale, Warsaw

- Hardened the Linux fleet and the Docker images, and set up Vault for secrets.

Certifications: Offensive Security Certified Professional (OffSec, 2019); CISSP (ISC2, 2022)

EDUCATION

2011 – 2016

MSc in Computer Science, Warsaw University of Technology

LANGUAGES

Polish - Native; English - Fluent
