

Ada Lovelace

Senior Backend Engineer

London, United Kingdom | +44 20 7946 0958 | ada.lovelace@example.com
linkedin.com/in/ada-lovelace-example · github.com/ada-example

SUMMARY

Backend engineer with ten years building queues, ingestion pipelines, and the services around them. Comfortable owning a system from the schema to the on-call rota.

EXPERIENCE

Senior Backend Engineer | Analytical Engines Ltd

London · Mar 2021 – Present

- Own the ingestion platform that turns uploaded documents into structured profiles.
- Cut the median processing time from 40 seconds to 6 by moving extraction to a worker pool.
- Mentor four engineers and run the design reviews for the data team.

Backend Engineer | Difference Works

Manchester · Jun 2016 – Feb 2021

- Built the billing service in TypeScript on PostgreSQL, handling 2 million invoices a month.
- Introduced contract tests between the API and the web app.

EDUCATION

MSc in Computer Science, University of Cambridge

2014 – 2016

BSc in Mathematics, University of Leeds

2011 – 2014

SKILLS

TypeScript, Node.js, PostgreSQL, Redis, Docker, Kubernetes, AWS, Terraform

PROJECTS

Difference Engine — <https://github.com/ada-example/difference-engine>

A mechanical calculator for polynomial functions, rebuilt as a web simulator.
